

SERVICE TO BE ON ROCK OF AGES

Entire Program in Tabernacle at Ft. Bliss To Be Built Around Hymn.

The entire program for the Sunday night service at the 20th Infantry tabernacle is built around the hymn, "Rock of Ages." The 20th Infantry band has woven into a medley of sacred songs that will be played as a prelude to the service, Miss Anna Axton is singing the familiar words to the tune of Schubert's "Ave Maria." The entire congregation will sing the well known hymn by Thomas Hastings, with the band to lead. Chaplain Samuel J. Smith will render a poetic description of "Rock of Ages" and its effect on a human life, and chaplain John T. Axton will deliver an appreciation of the life and work of Augustus Toplady, the author.

The men are looking forward to a visit during the week from Mrs. Ella Hoover Thacher, national superintendent of the work of the W. C. T. U. among the soldiers and sailors. Mrs. Thacher has been here frequently and has added many features to the attractions that are offered the men in their religious and social life. She will speak at the home hospital and at the service at the tabernacle on Sunday, March 4.

Order of Worship.

The complete order of worship for the service is: Prelude, march, "Rock of Ages." Ar. by Laurenceau. Doxology, band and congregation. Invocation and Lord's prayer, chaplain Clemens. Hymn, "Rock of Ages," Toplady-Hastings. Selection, "Pilate's Chorus" from Lombardi (Verdi), 20th Infantry band. Prayer, chaplain Axton. Poem, "Rock of Ages," chaplain Samuel J. Smith. Solo, "Rock of Ages" (Shubert), Miss Anna L. Axton. Hymn, "Just As I Am." Address, "Augustus Toplady," John T. Axton.

Postlude, "Sun of My Soul" (Monk), 20th Infantry band.

Benediction, chaplain Smith. Anton Goetz is band leader and Miss Matilda Axton accompanist.

JUAREZ SANITARY PLANT IS DISINFECTING THOUSANDS

Seven thousand persons have been disinfected at the Mexican government sanitary station at Juarez since its operation was resumed several months ago, according to its records. In addition several thousand bundles of baggage and packages have been passed through the fumigation process to destroy germs carrying contagious diseases and especially the typhus louse.

The persons disinfected at the plant are required to take a steam bath. The sanitation system is the same which the Mexican government has had in practice at all important ports of entry in the country for several years. Packages carried by immigrants are put through fumigation, which consists of placing them in hot air and steam rooms. Kept at a temperature which will kill all germs.

The plant is being operated under the supervision of Dr. Antonio de Luca, chief of the sanitary service at Juarez.

WOULD GIVE U. S. 4,000,000 ARMY

Universal Service Bill Provides for Training of 500,000 Men a Year.

Washington, D. C., Feb. 24.—The universal service bill, submitted yesterday by the general staff of the army to the senate military affairs committee, contemplates a trained force of 4,000,000 officers and enlisted men with one year of intensive military instruction. The secretary of war, submitting the proposal, said it was not thought that congress could give so intricate a problem consideration in the closing days of this session, but suggested that wide publicity be given the staff plan "to the end that both congress and the war department can in any subsequent consideration given to the subject, have the benefit of an enlightened, thoughtful public opinion upon the needs and wishes of the country."

Train 500,000 Boys a Year.

"As yet," the letter of transmittal continues, "I am not prepared to say officially for the war department that the need of the country can reasonably be said to be for so great an establishment nor can we yet, without further study and deliberation, be confident that the means suggested are the most appropriate to the need which it shall be determined wise to pursue."

It is estimated by the war college that approximately 500,000 boys in their 15th year would be available for training annually. They would, under the plan, be liable to call to the colors until 25 years of age, passing after the first 11 months of their training to the first reserve for the next four years and one month, then into the second reserve, and finally into the unorganized reserve until they reached the age of 45.

1,500,000 for First Reserve.

The purpose of the bill is to constitute the first reserve as a fully organized and equipped fighting force with a strength of 1,500,000, ready to respond instantly to a call to arms.

The second reserve, of equal size, but only partially equipped, would require some time to take the field. Eventually there would be 1,000,000 additional trained men ready to fill in gaps at the front.

About 300,000 in Regular Army.

In addition to these forces there would be a regular army composed of men choosing military life as a profession, of 21,000 officers and 28,800 enlisted men, of these 5,000 would form the overseas forces and 23,000 the frontier forces, the remainder comprising the permanent training force, which would take care of the instruction of from 432,356 to 544,292 recruits annually.

In estimating the cost of maintenance of the proposed army, the war college figured that an annual military budget of \$258,746 would be required to keep up the proposed force at a strength of 2,296,023 men, including the regulars. The total represents an annual cost of \$142.25 and includes the cost of training 475,000 recruits, although it does not enumerate them as available soldiers.

In comparison with this, the staff says eventually military budgets un-

der the present national defense act will be \$229,548,000 to maintain a partially trained force of 826,572 national guardsmen in addition to the regular army, or a total of 1,137,200 men at a per capita cost of \$298.55.

Considered An Ideal Plan.

After discussing various military plans considered and the federalization of the national guard, secretary Baker's letter continued:

"This plan is regarded by the military experts of the general staff as ideal. They recognize, however, that it involves not only a radical departure from the military traditions of the country, but that it presents a vast scheme of organization, far larger both in cost and results than anything yet seriously considered by the people of the United States."

250 OFFICERS RIDE WITH COL. HOLBROOK, 17TH CAVALRY

Two hundred and fifty officers from the cavalry division stationed at El Paso took part in a six-mile cross-country ride over several jumps and hazards Friday afternoon. The ride was arranged by Col. Willard A. Holbrook, commander of the 17th cavalry, and the officers of this regiment, who had officers from the Fifth, Seventh, Tenth, 11th and 13th regiments as their guests.

The ride began at 2:30 o'clock, the party starting from the officers' club on the 17th cavalry at Fort Bliss.

The ride was to have been made Wednesday, but was postponed because of the death of Maj. Gen. Frederick Funston.

Saturday's Cavalry Review Largest Since Spanish War

The largest cavalry review held by the United States army since the Spanish war in 1898, and the second largest since the Civil war, was held on the parade grounds west of Camp Stewart, when the cavalry division, encamped in Camp Stewart and Fort Bliss, passed in review before Brig. Gen. Eben Swift, division commander, at 3:30 o'clock Saturday morning.

The Fifth, Seventh, Eighth, 11th, 12th and 13th cavalry regiments took part in the review. The last review of a division of cavalry regiments took place in Florida in 1898.

Brig. Gen. George Bell, Jr., commander of the El Paso military district, was present at the review.

LIEUT. MCCUNIFF NEW AID.

Lieut. Dennis E. McCuniff, Sixth Infantry, has been appointed aid to Brig. Gen. George Bell, Jr. He succeeds Lieut. J. P. Dorey, Ohio cavalry, who returned to Ft. Benj. Harrison with the Ohio squadron when it was ordered from the border a few days ago to be mustered out.

CALOMEL IS MERCURY. IT SICKENS! CLEAN LIVER AND BOWELS GENTLY

Don't lose a day's work! If your liver is sluggish or bowels constipated take "Dodson's Liver Tone."

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated, breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crumbles into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back

guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working, you'll be cheerful, full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Advertisement.

Found Way to Health Without Using Knife

MRS. MARY A. FERREE.

Doctor Recommended Operation for Gall Stone Trouble, but Mother Objected.

In her work as an evangelist in the mountain districts of West Virginia, Mrs. Mary A. Ferree, who lives at 1964 Madison Ave., Huntington, W. V., was frequently called on to relieve suffering among her charges and became familiar with the practical value of remedies easily available. When her daughter became ill and the doctor finally said the trouble was gall stones and that an operation was necessary, Mrs. Ferree would not consent. In a letter to the Pinus Laboratories she says, "After four doctors had treated my daughter, and we had tried various remedies without avail, I heard of Fruitola and Traxo and tried it as a last resort. The first dose brought immediate relief and after using three bottles of Fruitola and two bottles of Traxo she was entirely cured."

I pray that my testimony may be the means of helping others to health. Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus Laboratories in Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened rundown system. A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.
